

# KAMIL ZAK

## Profile

I am a 31-year-old newly graduated computer engineer eager to apply my skills and passion for technology in a professional setting. I have gained valuable experience through my university studies, coding courses, and freelancing projects, developing web applications using React, RESTful APIs, and Java.

Currently, I am building my expertise in C# and .NET, and I am enthusiastic about the opportunity to contribute to innovative projects while learning from experienced colleagues.

## Experience

01.2024  
-  
05.2024
